France and the United States Frank Costigliola 1992 France, more than any other Western ally, has consistently tried to maintain its autonomy from U.S. foreign policy by insisting on a distinctively French global view and agenda. Whether interpreted as proud independence or petty intransigence, such French assertiveness has often embittered relations between the two nations and has sparked exasperation and resentment on both sides. In France and the United States: the Cold Alliance since World War II, Frank Costigliola examines the cultural and psychological aspects of postwar relations between the United States and its oldest ally and demonstrates the way in which these less tangible factors have colored the strategic, political, and economic ties between the two nations. This is the first major study of the two countries to look closely at the language of their diplomatic and cultural relations, and in particular at the ways in which gendered metaphors and allusions subtly affect attitudes and policies. The author also breaks new ground by considering how the end of the Cold War, the unification of Germany, the Persian Gulf War, the changing role of NATO, and the rise of the European Community have affected U.S. relations with France and with Western Europe as a whole. This timely and lively account sheds light on the political and personal clashes that de Gaulle had with Roosevelt and Johnson and that Mitterrand has had with Reagan and Bush. The author integrates into his political analysis the fascinating stories of the contested introduction into France of Coca-Cola, McDonald's, Hollywood films, and Euro Disneyland; the controversial adoption of French theories by some American intellectuals, the quarrel over AIDS, and the building of the I. M. Pei Pyramid at the Louvre. Costigliola's richly detailed account will be an important text for scholars and students of the postwar histories of the United States, France, and Western Europe.

Blue Dreams Nancy Abelmann 1995 No one will soon forget the image, blazed across the airwaves, of armed Korean Americans taking to the rooftops as their businesses went up in flames during the Los Angeles riots. Why Korean Americans? What stoked the wrath the riots unleashed against them? Blue Dreams is the first book to make sense of these questions, to show how Korean Americans, variously depicted as immigrant seekers after the American dream or as racist merchants exploiting African Americans, emerged at the crossroads of conflicting social reflections in the aftermath of the 1992 riots. The situation of Los Angeles's Korean Americans touches on some of the most vexing issues facing American society today: ethnic conflict, urban poverty, immigration, multiculturalism, and ideological polarization. Combining interviews and deft socio-historical analysis, Blue Dreams gives these problems a human face and at the same time clarifies the historical, political, and economic factors that render them so complex. In the lives and voices of Korean Americans, the authors locate a profound challenge to cherished assumptions about the United States and its minorities. Why did Koreans come to the United States? Why did they set up shop in poor inner-city neighborhoods? Are they in conflict with African Americans? These are among the many difficult questions the authors answer as they probe the transnational roots and diversity of Los Angeles's Korean Americans. Their work finally shows us in sharp relief and moving detail a community that, despite the blinding media focus brought to bear during the riots, has nonetheless remained largely silent and effectively invisible. An important corrective to the formulaic accounts that have pitted Korean Americans against African Americans, Blue Dreams places the Korean American story squarely at the center of national debates over race, class, culture, and community. Table of Contents: Preface The Los Angeles Riots, the Korean American Story Reckoning via the Riots Diaspora Formation: Modernity and Mobility Mapping the Korean Diaspora in Los Angeles Korean American Entrepreneurship American Ideologies on Trial Conclusion Notes References Index Reviews of this book: Blue Dreams--a poetic allusion to the clear blue sky that Koreans see as a symbol of freedom--is a welcome exploration by outsiders into the vexing and largely invisible Korean-American predicament in Los Angeles and the nation. [Abelmann and Lie 's] colorful interview subjects offer sharp observations. --K.W. Lee, Los Angeles Times Reviews of this book: An informed and thoughtful examination of Korean immigration to the United States since 1970...[Abelmann and Lie] show that even in a period as short as twenty-five years, there have been successive waves of differently motivated, differently resourced Korean immigrants, and their experiences and reactions have differed accordingly. --Michael Tonry, Times Literary Supplement Reviews of this book: [The authors'] transnational perspective is particularly effective for explicating Korean immigrants' behaviors, activities, and feelings...Interesting and readable. --Pyong Gap Min, American Journal of Sociology Reviews of this book: Beginning with a poetic book title, the authors recount in depth as to how the 'Blue Dreams' of the Korean-American merchants in East Los Angeles had shattered in the midst of [the] 1992 riot that turned out to be 'elusive dreams' in America...The book not only portrays the L.A. riot surrounding the Korean merchants, but also characterizes diaspora of the Koreans in America. The authors have also examined with scholarly insights the more complex socioeconomic and political underplay the Koreans encountered in their 'Promised New Land'. -- Eugene C. Kim, International Migration Review

Providing for the Casualties of War Bernard D. Rostker 2013-04-29 War has always been a dangerous business, bringing injury, wounds, and death, and--until recently--often disease. What has changed over time, most dramatically in the last 150 or so years, is the care these casualties receive and who provides it. This book looks at the history of how humanity has cared for its war casualties and veterans, from ancient times through the aftermath of World War II.

Kim Jiyoung, Born 1982: A Novel Cho Nam-Joo 2020-04-14 A New York Times Editors Choice Selection A global sensation, Kim Jiyoung, Born 1982 “has become...a touchstone for a conversation around feminism and gender” (Sarah Shin, Guardian). One of the most notable novels of the year, hailed by both critics and K-pop stars alike, Kim Jiyoung, Born 1982 follows one woman’s psychic deterioration in the face of rampant misogyny. In a tidy apartment on the outskirts of Seoul, millennial “everywoman” Kim Jiyoung spends her days caring for her infant daughter. But strange symptoms appear: Jiyoung begins to impersonate the voices of other women, dead and alive. As she plunges deeper into this psychosis, her concerned husband sends her to a psychiatrist. Jiyoung narrates her story to this doctor—from her birth to parents who expected a son to elementary school teachers who policed girls’ outfits to male coworkers who installed hidden cameras in women’s restrooms. But can her psychiatrist cure her, or even discover what truly ails her? “A social treatise as well as a work of art” (Alexandra Alter, New York Times), Kim Jiyoung, Born 1982 heralds the arrival of international powerhouse Cho Nam-Joo.

Coalition Air Warfare in the Korean War, 1950-1953 Air Force Historical Foundation. Symposium 2005 In commemoration of the fiftieth anniversary of the Korean War, the official history offices of the U.S. Army, Navy, Marine Corps, and Air Force and their respective historical associations collaborated to sponsor as comprehensive a symposium as possible, including as participants some of the coalition partners who contributed forces and weapons to the war. The intent of this symposium, titled Coalition Air Warfare during the Korean War, 1950 -1953, was to focus not only on the contributions made by the armed forces of the United States, but also on those of America's allies. The diverse group of panelists and speakers included not only scholars with subject matter expertise, but also veteran soldiers, sailors, and airmen who had served in that conflict. It was hoped that the melding of these diverse perspectives would provide interesting, if sometimes conflicting, views about the Korean War. The symposium organizers designated an agenda of six specific panels for investigation, including Planning and Operations; Air Superiority, Air Support of Ground Forces; Air Interdiction and Bombardment, Air Reconnaissance and Intelligence, and Logistical Support of Air Operations. Each session began with commentary by the panel chairman, which was followed by formal papers, and in some instances included a lively question and answer session. The papers and most of the proceedings found their way into print and are recorded here in an effort to permanently capture the activities, challenges, contributions, and heroics of the coalition air forces and the airmen who fought during the Korean conflict.

And yet we played on, because we had hope that we might be the lucky ones." In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her lover is married--she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. Richly told and profoundly moving, Pachinko is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters--strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis--survive and thrive against the indifferent arc of history. *Includes reading group guide*

Civil War in Bosnia, 1992-94 Edgar O'Ballance 1995 "The civil war in Bosnia, between Muslims, Serbs and Croats, historical and traditional enemies, fought with ferocity, began in April 1992. After initial successful Serb campaigns, battle positions became entrenched, as warlords, who levied tolls on UN food aid convoys, fought a war of siege, bombardment and starvation, to defend their own locality. Western intervention was disastrous; it was a war which could not be stopped. Western policies changed from supporting Bosnian entity, to division by cantons, and variations of those positions, as negotiations continued fruitlessly and endlessly. Uprooted refugees, ethnic cleansing, atrocities, concentration camps, broken promises and deceit, all became prominent features. Distrustful of Muslims, Western statesmen refused to raise the arms embargo against Bosnia so it could defend itself, or to allow NATO (American) warplanes to bomb Serbs. In March 1994, when rival American and Russian initiatives brought about a ceasefire in Sarajevo, bombed continually for almost two years in full television spotlight, it was hoped it would spread and develop into a peace process. Much of Bosnia lay in media darkness. Bosnia may become some form of UN protectorate, a long-lasting one, as it will take time for roused ethnic emotions to cool down."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Muslim-Croat Civil War in Central Bosnia Charles R. Shrader 2003-06-12 In *The Muslim-Croat Civil War in Central Bosnia, 1992-1994* Charles R. Shrader offers the first full-scale military history of a crucial conflict in Bosnia between two former allies. When the Bosnian Serbs and their Serbian allies attacked Bosnia-Herzegovina in March, 1992, the Bosnian Croats and Muslims collaborated to defend themselves. As Serbian pressure increased and it became clear that the West would not intervene, the two allies began to stake out their own claims. Drawing on testimony and exhibits from cases presented before the International Criminal Tribunal for the former Yugoslavia, Shrader describes the organization and tactical doctrine of the Croatian Defense Forces and the Muslim-led Army of Bosnia-Herzegovina. He analyzes the strengths and weaknesses of the two sides in such fields as communications, training, and logistics. He assesses not only the problems of command and control in the newly formed armies, but also the impact of criminal activity, the mujahedeen, and the intervention of peacekeeping forces. What looked to many like aggression by the Bosnian Croats, Shrader views as the adoption of an "active defense," a doctrine embraced by U. S. forces, against a predatory Muslim force. He believes UN and European observers rushed to judgment regarding the aggressive intent of the Croatian command. Far from being the attackers, Shrader concludes, the Bosnian Croats in Central Bosnia were clearly outnumbered, outgunned, and on the defensive. Surrounded by superior Muslim forces, they barely held out in their enclaves in the Lasva Valley until a cease-fire was achieved in February 1994. Although Shrader's work is a detailed, meticulous, analysis by a neutral expert, not everyone will find his conclusions comfortable. But every serious student of the conflict in Bosnia will have to take his history into account. Enhanced by maps, useful appendices, and a glossary, this should become the standard work on military operations in Central Bosnia and a useful case study of internal warfare and ethnic conflict.

Korea's Place in the Sun: A Modern History (Updated Edition) Bruce Cumings 2005-09-17 "Passionate, cantankerous, and fascinating. Rather like Korea itself."--Nicholas D. Kristof, *New York Times Book Review* Korea has endured a "fractured, shattered twentieth century," and this updated edition brings Bruce Cumings's leading history of the modern era into the present. The small country, overshadowed in the imperial era, crammed against great powers during the Cold War, and divided and decimated by the Korean War, has recently seen the first real hints of reunification. But positive movements forward are tempered by frustrating steps backward. In the late 1990s South Korea survived its most severe economic crisis since the Korean War, forcing a successful restructuring of its political economy. Suffering through floods,

droughts, and a famine that cost the lives of millions of people, North Korea has been labeled part of an "axis of evil" by the George W. Bush administration and has renewed its nuclear threats. On both sides Korea seems poised to continue its fractured existence on into the new century, with potential ramifications for the rest of the world.

Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.
