**Lost and Found** Sarah Jakes 2014-04-01 Don't let your past keep you from a full future. Like every girl, Sarah Jakes dreamed of a life full of love, laughter, and happy endings. But her dreams changed dramatically when she became pregnant at age thirteen, a reality only compounded by the fact that her father, Bishop T.D. Jakes, was one of the most influential megachurch pastors in the nation. As a teen mom and a high-profile preacher's kid, her road was lonely. She was shunned at school, gossiped about at church. And a few years later, when a fairy-tale marriage ended in a spiral of hurt and rejection, she could have let her pain dictate her future. Instead, she found herself surrounded by a God she'd given up on, crashing headlong with Him into a destiny she'd never dreamed of. Sarah's captivating story, unflinchingly honest and deeply vulnerable, is a vivid reminder that God can turn even the deepest pain into His perfection. More than a memoir, *Lost and Found* offers hope and encouragement. Perhaps you, like Sarah, find yourself wandering the detours of life. Regardless of how lost you feel, you, too, can be found.

**The Book of L** G. Rozenberg 2012-12-06 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

**The Moment of Everything** Shelly King 2014-09-02 In the tradition of *The Cookbook Collector* comes a funny, romantic novel about a young woman finding her calling while saving a used bookstore. Maggie Dupriv@s, recently "involuntarily separated from payroll" at a Silicon Valley startup, is whiling away her days in The Dragonfly's Used Books, a Mountain View institution, waiting for the Next Big Thing to come along. When the opportunity arises for her to network at a Bay Area book club, she jumps at the chance—even if it means having to read *Lady Chatterley's Lover*, a book she hasn't encountered since college, in an evening. But the edition she finds at the bookstore is no Penguin Classics *Chatterley*—it's an ancient hardcover with notes in the margins between two besotted lovers of long ago. What Maggie finds in her search for the lovers and their fate, and what she learns about herself in the process, will surprise and move readers. Witty and sharp-eyed in its treatment of tech world excesses, but with real warmth at its core, *The Moment of Everything* is a wonderful read.

**Walker Evans** Walker Evans 2001 "As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned rhetoric. Evans's photographs of Cuba were made by a young, still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--Jacket.

**The Dancing Girls of Lahore** Louise Brown 2009-10-13 An unforgettable and compassionate look at the lives of the residents of Lahore's pleasure district *The Dancing Girls of Lahore* inhabit the Diamond District in the shadow of a great mosque. The 21st century goes on outside the walls, this ancient quarter, but scarcely registers within. Though their trade can be described with accuracy as prostitution, the dancing girls have an illustrious history: beloved by sultans, their sophisticated art encompassed the best of Mughal culture. The modern day Bollywood aesthetic, with its love of gaudy spectacle, music, and dance, is their distant legacy. But the life of the pampered courtesan is not the one now being lived by Maha and her three girls. What they do is forbidden by Islam, though tolerated; but they are, unclean, and Maha's daughters, like her, are born into the business and will not leave it. Sociologist Louise Brown spent four years in the most intimate study of the family life of one Lahori courtesan. Beautifully understated, it turns a novelist's eye on a true story that beggars the imagination. Maha, at fourteen a classically trained dancer of exquisite grace, had her virginity sold to the Sultan of Dubai; when her own daughter Nena comes of age and Maha cannot bring in the money she once did, she faces a terrible decision as the agents of the Sultan come calling once more.

**Wake Up, Woods** Michael A. Homoya 2019-10 Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. *Wake Up, Woods* showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of *Wake Up, Woods* will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

**Thinking in New Boxes** Luc De Brabandere 2013-09-10 When BIC, manufacturer of disposable ballpoint pens, wanted to grow, it looked for an idea beyond introducing new sizes and ink colors. Someone suggested lighters. LIGHTERS? With an idea that seemed crazy at first, that bright executive, instead of seeing BIC as a pen company—a business in the PEN “box”—figured out that there was growth to be found in the DISPOSABLE “box.” And he was right. Now there are disposable BIC lighters, razors, even phones. The company opened its door to a host of opportunities. IT INVENTED A NEW BOX. Your business can, too. And simply thinking “out of the box” is not the answer. True ingenuity needs structure, hard analysis, and bold brainstorming. It needs to start THINKING IN NEW BOXES—a revolutionary process for sustainable creativity from two strategic innovation experts from The Boston Consulting Group (BCG). To make sense of the world, we all rely on assumptions, on models—on what Luc de Brabandere and Alan Iny call “boxes.” If we are unaware of our boxes, they can blind us to risks and opportunities. This innovative book challenges everything you thought you knew about business creativity by breaking creativity down into five steps: • Doubt everything. Challenge your current perspectives. • Probe the possible. Explore options around you. • Diverge. Generate many new and exciting ideas, even if they seem absurd. • Converge. Evaluate and select the ideas that will drive breakthrough results. • Reevaluate. Relentlessly. No idea is a good idea forever. And did we mention Reevaluate? Relentlessly. Creativity is paramount if you are to thrive in a time of accelerating change. Replete with practical and potent creativity tools, and featuring fascinating case studies from BIC to Ford to Trader Joe's, *Thinking in New Boxes* will help you and your company overcome missed opportunities and stay ahead of the curve. This book isn't a simpleminded checklist. This is *Thinking in New Boxes*. And it will be fun. (We promise.) Praise for *Thinking in New Boxes* “Excellent . . . While focusing on business creativity, the principles in this book apply anywhere change is needed and will be of interest to anyone

seeking to reinvent herself.”—Blogcritics “*Thinking in New Boxes* is a five-step guide that leverages the authors' deep understanding of human nature to enable readers to overcome their limitations and both imagine and create their own futures. This book is a must-read for people living and working in today's competitive environment.”—Ray O. Johnson, Ph.D., chief technology officer, Lockheed Martin “*Thinking In New Boxes* discusses what I believe to be one of the fundamental shifts all companies/brands need to be thinking about: how to think creatively, in order to innovate and differentiate our brands. We need to thrive and lead in a world of accelerating change and this book challenges us to even greater creativity in our thinking. One of the best business books I've read in a long time.”—Jennifer Fox, CEO, Fairmont Hotels & Resorts “As impressive as teaching new tricks to old dogs, *Thinking in New Boxes* is both inspirational and practical—a comprehensive, step-by-step guide to sharpening one's wits in order to harness creativity in the workplace.”—Peter Gelb, general manager, Metropolitan Opera

**A New Hasidism: Roots** Arthur Green 2019-10 Neo-Hasidism applies the Hasidic masters' spiritual insights—of God's presence everywhere, of seeking the magnificent within the everyday, in doing all things with love and joy, uplifting all of life to become a vehicle of God's service—to contemporary Judaism, as practiced by men and women who do not live within the strictly bounded world of the Hasidic community. This first-ever anthology of Neo-Hasidic philosophy brings together the writings of its progenitors: five great twentieth-century European and American Jewish thinkers—Hillel Zeitlin, Martin Buber, Abraham Joshua Heschel, Shlomo Carlebach, and Zalman Schachter-Shalomi—plus a young Arthur Green. The thinkers reflect on the inner life of the individual and their dreams of creating a Neo-Hasidic spiritual community. The editors' introductions and notes analyze each thinker's contributions to Neo-Hasidic thought and influence on the movement. Zeitlin and Buber initiated a renewal of Hasidism for the modern world; Heschel's work is quietly infused with Neo-Hasidic thought; Carlebach and Schachter-Shalomi re-created Neo-Hasidism for American Jews in the 1960s; and Green is the first American-born Jewish thinker fully identified with the movement. Previously unpublished materials by Carlebach and Schachter-Shalomi include an interview with Schachter-Shalomi about his decision to leave Chabad-Lubavitch and embark on his own Neo-Hasidic path.
