Leandro: Greek. Biker. Billionaire.
Marian Tee With the elections coming up and his father wanting a seat in Parliament, Leandro Christopoulos needed to reinvent his public image from playboy underground motor racer to boring upright role model. The solution: Bobby Granger. Bobby, which was short for Roberta, supposedly the smartest girl in school and recently voted as Young Philanthropist of the Year. Unfortunately, she was not his type - snarky, old-fashioned, bookish, and most importantly of all – the kind who needed to be in love before going to bed with a guy. High maintenance was his first thought. Find another girl was what his initial instincts told him. But then Leandro accidentally saw her naked, and he knew he was just going to have to lie about falling in love with her. NOTE: This was previously published as a two-part serial (Heart Racer and Driven by Love).

Directorate S
Steve Coll 2018-02-06
Winner of the 2018 National Book Critics Circle Award for Nonfiction Longlisted for the 2018 National Book Award for Nonfiction From the Pulitzer Prize-winning author of Ghost Wars, the epic and enthralling story of America’s intelligence, military, and diplomatic efforts to defeat Al Qaeda and the Taliban in Afghanistan and Pakistan since 9/11 Prior to 9/11, the United States had been carrying out small-scale covert operations in Afghanistan, ostensibly in cooperation, although often in direct opposition, with I.S.I., the Pakistani intelligence agency. While the US was trying to quell extremists, a highly secretive and compartmentalized wing of I.S.I., known as “Directorate S,” was covertly training, arming, and seeking to legitimize the Taliban, in order to enlarge Pakistan’s sphere of influence. After 9/11, when fifty-nine countries, led by the U. S., deployed troops or provided aid to Afghanistan in an effort to flush out the Taliban and Al Qaeda, the U.S. was set on an invisible slow-motion collision course with Pakistan. Today we know that the war in Afghanistan would falter badly because of military hubris at the highest levels of the Pentagon, the drain on resources and provocation in the Muslim world caused by the U.S.-led invasion of Iraq, and corruption. But more than anything, as Coll makes painfully clear, the war in Afghanistan was doomed because of the failure of the United States to apprehend the motivations and intentions of I.S.I.’s “Directorate S”. This was a swirling and shadowy struggle of historic proportions, which endured over a decade and across both the Bush and Obama administrations, involving multiple secret intelligence agencies, a litany of incongruous strategies and tactics, and dozens of players, including some of the most prominent military and political figures. A sprawling American tragedy, the war was an open clash of arms but also a covert melee of ideas, secrets, and subterranean violence. Coll excavates this grand battle, which took place away from the gaze of the American public. With unsurpassed expertise, original research, and attention to detail, he brings to life a narrative at once vast and intricate, local and global, propulsive and painstaking. This is the definitive explanation of how America came to be so badly ensnared in an elaborate, factional, and seemingly interminable conflict in South Asia. Nothing less than a forensic examination of the personal and political forces that shape world history, Directorate S is a complete masterpiece of both investigative and narrative journalism.
