Practical Chess Openings Reuben Fine 2013-01 Practical Chess Openings is a basic openings book covering all the major openings, in alphabetical order. At the beginning of each section is a general description of the opening and its history, including the names of famous players who played it. The opening lines are in Descriptive Notation and are arranged in columns from the most popular to the least popular. Nowadays chess grandmasters do not study opening books. Instead they work with computer databases with millions of games in them, and then run them through chess analysis programs like Fritz, Houdini and Rybka, searching for new ideas and for flaws in their rival grandmaster's analysis. Amateur chess players cannot compete against this. We must just play for the enjoyment of the game without any hope of ever making grandmaster status. Having a book with the latest most up to date lines is of no added value. A serviceable, shorter and highly readable book like Fine's "Practical Chess Openings" is just as good and perhaps even better than a new book crammed with all the latest stuff.

Soccer Mastery: The Little Things that Make a Big Difference: Habits, Secrets and Strategies that Will Escalate Your Game to the Next Chest Dugger 2019-05-26 Soccer is a game of habits. Mastering your soccer game means stepping out of the hamster wheel you've been living in for years.

Event Processing in Action Peter Niblett 2010-08-14 Unlike traditional information systems which work by issuing requests and waiting for responses, event-driven systems are designed to process events as they occur, allowing the system to observe, react dynamically, and issue personalized data depending on the recipient and situation. Event Processing in Action introduces the major concepts of event-driven architectures and shows how to use, design, and build event processing systems and applications. Written for working software architects and developers, the book looks at practical examples and provides an in-depth explanation of their architecture and implementation. Since patterns connect the events that occur in

any system, the book also presents common event-driven patterns and explains how to detect and implement them. Throughout the book, readers follow a comprehensive use case that incorporates all event processing programming styles in practice today. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-

phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.
