Products Liability Law David G. Owen 2005 This hornbook delves into the expanding field of products liability law. It focuses on the major issues of products liability law, addressing them in a clear, comprehensive manner. The book starts out with introductory discussions on the nature and history of the law in the USA and abroad. It proceeds with detailed inquiries into the theories of liability, product defectiveness, causation and defences. The book ends with a focus on selected issues.

Drama with Children Sarah Phillips 1999-05-27 This book introduces drama activities to children, including role play, mime, chants, puppets and short plays.

Dr. Kellyann's Bone Broth Diet Kellyann Petrucci 2015-12-08 The New York Times says it "ranks with green juice and coconut water as the next magic potion in the eternal quest for perfect health." ABC News calls it "the new juice craze." Celebrities like Gwyneth Paltrow and Kobe Bryant are hooked on it. It's bone broth--and it's the core of Dr. Kellyann's Bone Broth Diet. Naturopathic physician and weight loss specialist Kellyann Petrucci, MS, ND, knows the healing power of bone broth. The cornerstone of her booming health practice (as well as so many family recipes), bone broth is packed with fat-burning, skin-tightening collagen; has anti-inflammatory properties; helps heal the gut; and warms and satisfies the entire body. In Dr. Kellyann's Bone Broth Diet, Dr. Petrucci couples delicious bone broth recipes with a groundbreaking intermittent fasting plan, helping you achieve spectacular weight loss and more youthful looking skin in just 21 days. Dr. Petrucci walks you through the science of why bone broth works, then arms you with a plan to lose weight safely and easily--with no cravings, weakness, or hunger pains. She'll introduce you to simple but gourmet recipes for beef, turkey, chicken, and fish bone broths and soups that are loaded with flavor and nutrients, and easy ways to cut down on time spent in the kitchen. Also incorporating easy resistance training routines and mindful meditation exercises, Dr. Petrucci gives you everything you need to succeed.

Popular Science 1988-10 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Little and Often Trent Preszler 2021-04-27 A USA TODAY BEST BOOK OF THE YEAR (★★★★) "Little and Often is a beautiful memoir of grief, love, the shattered bond between a father and son, and the resurrection of a broken heart. Trent Preszler tells his story with the same level of art and craftsmanship that he brings to his boat making, and he reminds us of creativity's power to transform and heal our lives. This is a powerful and deeply moving book. I won't soon forget it." –Elizabeth Gilbert Trent Preszler thought he was living the life he always wanted, with a job at a winery and a seaside Long Island home, when he was called back to the life he left behind. After years of estrangement, his cancer-stricken father had invited him to South Dakota for Thanksgiving. It would be the last time he saw his father alive. Preszler's only inheritance was a beat-up wooden toolbox that had belonged to his father, who was a cattle rancher, rodeo champion, and Vietnam War Bronze Star Medal recipient. This family heirloom befuddled Preszler. He did not work with his hands—but maybe that was the point. In his grief, he wondered if there was still a way to understand his father, and with that came an epiphany: he would make something with his inheritance. Having no experience or training in woodcraft, driven only by blind will, he decided to build a wooden canoe, and he would aim to paddle it on the first anniversary of his father's death. While Preszler taught himself how to use his father's tools, he confronted unexpected revelations about his father's secret history and his own struggle for self-respect. The grueling challenges of boatbuilding tested his limits, but the canoe became his sole consolation. Gradually, Preszler learned what working with his hands offered: a different perspective on life, and the means to change it. Little and Often is an unflinching account of bereavement and a stirring reflection on the complexities of inheritance. Between his past and his present, and between America's heartland and its coasts, Preszler shows how one can achieve reconciliation through the healing power of creativity. "In insightful, lyrical...Little and Often proves to be a rich tale of self-discovery and reconciliation. Resonating with Robert Pirsig's classic Zen and the Art of Motorcycle Maintenance, it is a profound father-and-son odyssey that discovers the importance of the beauty of imperfection and small triumphs that make extraordinary happen." —USA Today (★★★★)

Manual of Tests and Criteria United Nations 2020-01-06 The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".
